INTRODUCTION

The Library Periodical Directory is an alphabetical list of all of our magazines, periodicals, and newspapers including the years we retain. For example,

American Forests.....P: 2009-
M: 1968-1987

- P** signifies that our holdings are in **paper** format
- M** signifies that our holdings are on **microfilm** format
- signifies that we are still receiving the title

A second date after the date indicates the cutoff date.

Other Things to Note

The Indexes to Periodical Literature are listed on separate pages at the end of this directory. There is also a separate Newspaper Listing.

In addition to our combined alphabetical listing of Periodicals and Newspapers is the Subject Index which is a list of our titles by Subject. Titles are listed under the most specific subject heading for each category. Thus, a title containing mostly articles on biology is listed under that heading even though an issue may also contain an article on biochemistry and one on anthropology. A title such as Scientific American, that covers various fields of science, will be listed under the broader heading, "Science and Technology". Cross references "SEE ALSO" are listed to help you find related topics. This list includes all titles owned including cancelled titles.

IMPORTANT: You may also search for articles using our electronic databases by going to the College home page (<https://www.sunycgcc.edu>) and click: **Academics**. Then, click: **Library & Media** to get to the Library home page.
